VICTORY DEPENDS END OF HELLENISM, SAYS VENIZELOS, IF BULGARIA IS TRIUMPHANT

Paris, Oct. 12.-In reply to a statement by Premier Zaimis in the Greek Chamber to-day that the future policy of the country would be armed neutrality, ex-Premier Venizelos declared that Greece must enter the war to prevent Bulgaria from crushing Serbia in order to attack Greece with all her forces. The triumph of Bulgaria, he added, would mean the end of Hellenism.

"No one could wish to create internal difficulties in the country in view of the present extremely critical situation," M. Venizelos declared. "The Chamber will give its support to the government as long as the government policy does not alter the principles of my policy, upon which the Chamber already has given its vote. Even if there existed no treaty with Serbia our interest would oblige us to depart from neutrality, as another state wishes to aggrandize itself at our expense. The question is not whether we ought to make war or not, but

when we ought to enter the war. In any case we ought not to allow Bulgaria to crush Serbia in order that she then may attack us with all her forces. The national soul says it is to the interest of Greece that Bulgaria should be crushed. If Bulgaria should triumph Hellenism would be completely vanquished."
